The Most Prominent Men in the District are Brutally Scalped and Murdered.

A Large Number of Women and Children Carried Off by the Bloodthirsty Devils.

Troops are Dispatched to the Scene of the Tragedy—Names of a Number of the Victims.

Special Dispatch to The Journal.
CHIHUAHUA, Old Mexico, Dec. 7.—The late massacre by a roving band of 500 Apaches, proves to have been one of the most blood thirsty outrages ever committed in Old Mexico.

THE INDIANS
had been unusually quiet for some time past, and the people were wholly unconscious of any danger, when the savages came down upon the little settlement about daylight in the morning, and with wild, demoniac yells, commenced an indiscriminate slaughter. Nearly all the men and children in the pueblo of

CASSA GRANDE were murdered, and the women and girls carried off. The people who were murdered were among the wealthiest and most respectable citizens of this portion of Chihuahua. Thirty families were destroyed. As near as can be ascertained at this time, fully seventy-five men and children have been murdered, and women to the number of between thirty and forty carried away to a fate worse than death.

TROOPS WERE DISPATCHED To the vicinity of the massacre as soon as possible, and are now on the trail of the Indians. The greatest excitement prevails throughout all this portion of the state.

Among those killed were the following: Juan Mata Ortiz, Leandro Gutierrez, Paulino Gutierrez, Salter Garcia, Cayetano Escudero, Estevan Gomez, Jose Maria Forseau, Ricardo Costello, Pablo Alvarez, Roman Alvarez, Pedro Hinojos, Jesus Jose Lueva, Fernando Mereno, Camillo Chavez, Escudero Carvayal, Luico Gonzales, Candario Martinez, Bomardo Pina, Pablo Migia, Jesus Olivas, Juan Ruiz, Jose Ma. What the Western Union Telegraph Company did for the Observers of the Transit CHICAGO, Ill., Dec. 7.—To secure satisfactory observations of the transit of Venus, it was important that astronomers should have exact Washington time, whereby the transit was scientifically observed. This is the last day that transmission of signals will be necessary, and although the storms in the east and blizzards in the west have dismantled the wires, the service was rendered with indifference and satisfaction.
